PREFATORY NOTE

THIS eighty-ninth yearly issue of THE ENGLISH CATALOGUE OF BOOKS comprises the titles (under authors, and subjects or titles) of works published during 1925, and also of some received too late for inclusion in the eighty-eighth issue.

The main entry for each book begins with the author's surname (if known) in **heavy type**. As an index to these "Author" records, entries are also made under the titles, commencing with their most important words (which usually indicate the *subjects* with which the books deal), or with the first words. Many other index entries are also made under subjects in order to make the CATALOGUE of use to persons in search of the literature of a particular topic, as well as to those requiring a particular book. The name or word under which the main entry appears is printed in *italics* in these index entries, thus giving a reference to the place where the full information about a book may be found. Main entries and index entries are in one alphabet.

Writers with compound names are entered under the first part of the name, *e.g.* :—

Everett-Green (Evelyn)

and accordingly must be looked for in that order. References are also made, however, from the last part of the name.

The publications of learned Societies are recorded in an Appendix.

The names and addresses of the Publishers of Great Britain and Ireland will be found at the end of the volume. The telegraphic and cable addresses and telephone numbers have been added when known.

Following the Preface is an analysis of the books of the year 1925, showing in detail the number of works in each class of literature, and giving the proportions of new books, translations, pamphlets, and new editions.

Every effort has been made to obtain the full particulars of the books noted. Special enquiries were made in every case where information was deficient ; and most publishers courteously responded. In the cases where entries have been included without prices, the fault lies with the publishers concerned.

Hearty thanks are due to the many publishers, secretaries, librarians, authors and bibliographers who have assisted in making this book more correct and comprehensive than it would have been otherwise.

The Editor will be glad to have particulars (author, title, size, price, publisher, and month of publication) of any work which may have been omitted. Information regarding each book should be given on a separate slip of paper or postcard. It should be addressed to *The Editor of THE ENGLISH CATALOGUE OF BOOKS*, "Publishers' Circular" Office, 19, Adam Street, Strand, London, W.C.2.

ANALYSIS OF BOOKS

PUBLISHED DURING 1925 IN THE UNITED KINGDOM

In spite of economic depression, trade strikes and other adversities, more books were published during 1925 than in any previous year in the history of British book production.

A total of 13,202 books is recorded by THE PUBLISHERS' CIRCULAR and THE ENGLISH CATALOGUE as having been published during the past twelve months. This is an increase of 496 over the total for 1924, and all indications point to the fact that publishing is prepared for a steadily expanding output year by year, in the manner that was noticeable in the pre-war period.

This increase of 496 has taken place in the "new books," as distinguished from "new editions," etc., and is shown in detail in the following figures for this year and last year:—

	1924.	1925.
New books ...	8,024	8,520
Translations ...	321	307
Pamphlets ...	1,168	1,150
Total new books	9,513	9,977
New editions ...	3,193	3,225
Total ...	12,706	13,202

This is an encouraging fact, showing as it does that new ventures, and the vitality necessary for such ventures, have been the feature of the year's work.

Examining the figures in detail, we find that the following classes of literature show substantial *increases*: Juvenile literature (+ 108), Law (+ 88), Military and Naval (+ 74), Philology (+ 60), Biography (+ 55), Agriculture and Gardening, (+ 46), and Science (+ 32). Smaller increases are to be noted in most of the other classes. There are a few *decreases*: General works (— 49), Fine Arts (— 44), Fiction (— 32), Philosophy (— 29), and Poetry and Drama (— 16). It will be seen that there are no striking alterations in the quantitative representation of the various classes of literature. Perhaps the most noticeable point that emerges is that in a year when a general increase of nearly 500 is recorded, there has actually been a decrease in the number of novels issued. In spite of this however, it will probably be admitted that, with a total of 2,769, fiction is represented quite adequately! (And it has to be noted that this decrease has taken place in "new editions" of fiction, and that the "new" fiction has even increased by 77.)

It is impossible to compare the circulation to the public of the various classes

of literature, because a book published in an edition of one hundred copies, and another published in an edition of ten thousand copies, both appear as units in our table.

The following table showing the order in which the totals of the chief classes of literature appear this year and in the last pre-war year may serve to give a rough indication of the preferences of the reading public:—

1914.	1925.
(1) Fiction	(1) Fiction
(2) Religion	(2) Juvenile
(3) Science	(3) Religion
(4) Sociology	(4) Sociology
(5) Technology	(5) Poetry
(6) Poetry	(6) Biography
(7) Juvenile	(7) Science
(8) Description	(8) Technology
(9) Literature	(9) Description
(10) { History	(10) Literature
{ Medicine	(11) History
(11) Biography	(12) Medicine, etc.
(12) Military and Naval	

The following totals for the years since 1913 (the pre-war record year) are also of considerable interest:—

Year.	New Books.	New Editions.	Total.
1913 ...	9,541	2,838	12,379
1914 ...	8,863	2,674	11,537
1915 ...	8,499	2,166	10,665
1916 ...	7,537	1,612	9,149
1917 ...	6,606	1,525	8,131
1918 ...	6,750	966	7,716
1919 ...	7,327	1,295	8,622
1920 ...	8,738	2,266	11,004
1921 ...	8,757	2,269	11,026
1922 ...	8,754	2,088	10,842
1923 ...	9,246	3,028	12,274
1924 ...	9,513	3,193	12,706
1925 ...	9,977	3,225	13,202

Much further detailed information regarding the year's publishing may be gleaned from the analytical tables. It will be noted, for example, that the "Autumn Publishing Season" is back again in its full vigour, whereas the old "Spring Publishing Season" is spread over the Spring months much more equally than once was the case, with a "peak" in June instead of March.

The method of enumerating the books published may be interesting to our readers. Each complete publication is counted as one, whether it is in one or more volumes. Serials that appear later

as a collected volume are counted as an ordinary book on the appearance of that volume, so that, for example, the series of " Statutory Rules and Orders " issued by the Government, amounting to hundreds in the year, are counted as one item on the appearance of the annual collected volume.

All Government publications do not appear in THE PUBLISHERS' CIRCULAR and these tables, because many hundreds of them are merely business papers that are not publications in the true sense at all; but all the important Government publi-

cations do appear. All publications of 48 pages or less are counted as " pamphlets." It would be easy to swell the totals by many thousands yearly by counting all kinds of printed matter (such as ephemeral pamphlets, local government publications, musical texts, etc.), but the purpose of this table is to represent the book publishing activity of the United Kingdom. This must be remembered in comparing the figures with those of other countries, in some of which all such printed items (even single copies of newspapers) are counted.

DIRECTORY OF PUBLISHERS

Publishers are invited to send us their Telegraphic Addresses and Telephone Numbers.

Those sent will be found below between square brackets [], and separated from each other by a semicolon (;).

The Editor will be glad to be notified of any inaccuracy in the following lists for correction in subsequent volumes.

This list of Publishers, with their Addresses, has been compiled principally with a view to supplying information regarding the books in the English Catalogue. This will explain the inclusion of some firms in the list who can scarcely, in the strict acceptance of the term, be called Publishers, since the publication of books forms only an occasional part of their business.

THE CARLTON CLASSICS

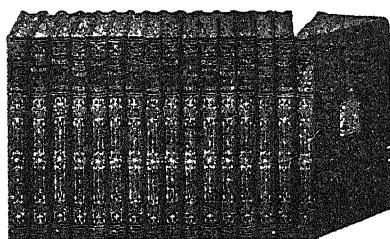

A SERIES OF BOOKS OF THE WORLD'S MASTERPIECES

"Will outbid all rivals."—
Bookman.

"These volumes are really
marvels of cheapness."—
Truth.

"Contains the very cream of
our literature."—
Daily Graphic.

"Certainly wonderful."—
Nation & Athenæum.

"The selection of titles is
wide and comprehensive.
There will be no doubt as
to their welcome from the
book-lover. Type, paper,
binding, are a pleasure to the
eye. Worthy and beautiful
books at a reasonable price—
books that will not be thrown
away as soon as they are read,
but will be cherished as
valuable additions to any
library."—*Daily Telegraph.*
